Peer Feedback	
Strengths – What have they done well? Explain why.	Identify any tasks which are missing or incomplete. Identify tasks that need improvement.
Sketches are consistent and present the product effectively with large and detailed annotations that show how your creative thought went into the sketch. Understanding of the theme is clear and ideas form a clear vision of what the final product will be.	There is a large amount of pixel art lacking, sketches are relevant and present ideas effectively but are not put down in your chosen art style, more individual assets need to be sketched such as bank items.

Student Action Plan
I will add all of the missing artwork and continue to produce more that clearly shows what my chosen art style is. I also have a list of the assets that I would like to sketch out, I have completed most of them but just haven't uploaded them yet.
